

AccuScreens Electric Screen

The AccuScreens™ Electric Screen is designed to provide years of satisfying viewing in your home theater, conference room, or classroom. All AccuScreens Electric Screens are manufactured with our BalanceView viewing surface, providing the optimum in viewing pleasure. Brilliant colors and outstanding contrast capabilities bring out the best in your projector!

The Right Projector Screen Solution

With sizes from 7' diagonal NTSC (4:3 aspect) to an astounding 119" HDTV (16:9 aspect), your home theater, conference room, or classroom will have a beautiful image, larger than any flat screen TV available! All AccuScreens Electric Screens have black leader above the image area and black masking around the viewing surface to expertly frame your projected image.

The steel case and durable plastic end caps are finished in an attractive Euro-White. The sturdy design of the Universal Mounting Brackets on each end cap allow for either wall or ceiling installation. Plug-and-Play wiring makes installation easy! Maintenance of the viewing surface is a snap. If needed, just clean with mild soap and water! A 12-month warranty covering workmanship and materials provides peace of mind.

About Us

Located in the US with a worldwide network of partners, AccuScreens is a leading quality-driven projection screen company. We rely on our in-house research and development team as well as collaboration with eminent projector manufacturers to bring you the best products at the lowest prices. AccuScreens are available from a wide variety of suppliers, each with complete inventories and industry leading shipping capabilities.

Our fully trained sales staff is CTS certified by InfoComm, and has over 40 years of AV expertise to help assist you with questions regarding the design, installation and service of your specific requirement. Most of all we want to insure your total satisfaction and to make it easy to do business with AccuScreens.

AccuScreens

Ease of Use

Control of the AccuScreens Electric Screen is easy enough to allow everyone to easily utilize your screen. Point and click the remote control provided, or use the three-position in-line wall switch, and the ultra-quiet synchronous electric motor takes over as your viewing surface silently glides into view.

Specifications

- Euro-White screen case will blend in with any décor.
