

AccuScreens Precision Mounts

PRECISION
MOUNTS

Introducing Projector Mounts by AccuScreens!

Precision Mounts are quality-made mounts that offer great features at an excellent price. Precision Projector mounts take your home theater experience to a new level. No more setting up and tearing down for the big game. Your projector is already mounted and ready to go!

This ceiling mount for projectors has a universal bracket that attaches to most projectors. Mounting your projector with Precision Mount's ceiling mount means minimal set-up each time you want to use your projector.

- Overall assembled height - 10"
- Max Projector weight - 55 lbs.
- Tilt/Roll \pm 15 degrees
- Rotates 360°
- Universal arms attach to threaded mounting holes, minimum of 3 mounting holes. The 3 mounting holes must fall within a 12½" diameter area to work with this mount.
